

AUGUSTA
ONCOLOGY
—
AIKEN
ONCOLOGY

For Augusta Oncology & Aiken Oncology Patients ONLY:

Oral contrast administration instructions for CT scans of the Abdomen/Pelvis:

- *NPO for 6 hours prior to scan. (It is ok to drink water.)
- Drink 1 bottle oral contrast 2 hours prior to appointment time.
- Drink half of the second bottle 1 hour prior to scan and bring remainder with you. (If possible, take home at scheduling of appointment or get oral contrast before day of scan.)

For patients with IV contrast only on all CT scans:

*NPO for 2 hours prior to scan.

For patients with no contrast on all CT scans:

No restrictions.

For Dexa scans:

- Wear loose comfortable clothing.
- Make sure your clothing has no metal or plastic zippers, buttons or snaps.
- Avoid taking calcium supplements (including multi-vitamins) and consuming dairy products for 24 hours prior to your exam.

**NPO - nothing to eat/drink*
